

**Title III and VII State Program Report**  
**Administration on Aging**  
**U.S. Department of Health and Human Services**

**Instructions:**

Fiscal Year:	<input type="text" value="2019"/>	<i>Enter fiscal year, e.g. 2011</i>
Submitter Name:	<input type="text" value="FL Department of Elder Affairs"/>	<i>Enter name of report submitter (maximum 50 chars)</i>
Email Address:	<input type="text" value="carranzaj@elderaffairs.org"/>	<i>Enter email address of report submitter, e.g. user@state.org</i>
Phone Number:	<input type="text" value="(850) 414-2056"/>	<i>Enter submitter's phone number in the format 8005551212</i>
Comments:	<input type="text"/>	<i>Enter comments (maximum 255 chars)</i>

## SECTION I. Elderly Clients

### A. Elderly Client Counts

	Total
1. Unduplicated Count of Persons Served For Registered Services Supported by the OAA Title III (Number does not include caregivers served)	145,756
2. Estimated* Unduplicated Count of Persons Served For Unregistered Services Supported by the OAA Title III (Number does not include caregivers served)	704,122
3. Total Estimated Unduplicated Count of Persons Served Through Services Supported by OAA Title III (Number does not include caregivers served)	722,041

\* There is no prescribed method for developing this estimate.

**SECTION I. Elderly Clients**

**B. General Characteristics of Elderly Clients Receiving Registered Services and Those Receiving Cluster 2 Registered Services**

**Total Registered Clients (Cluster 1 and Cluster 2)**

Clients Receiving Registered Services*					
	Total*	With Income Below Poverty	Age of Client 60-74	Age of Client 75-84	Age of Client 85+
<b>Total Clients</b>	145,756	74,205

**SECTION IV. Developmental Accomplishments**

**A. For Home and Community Based Programs**

Identification of Three Top Accomplishments		
<b>1</b>	<b>Type of Development:</b>	<b>1. Public Education/Awareness</b>
<p>At the 2019 Florida Senior Day event, the Florida Department of Elder Affairs (DOEA) expanded programming to include a new Senior Day Forum with a panel led by DOEA Secretary Richard Prudom to discuss issues facing Florida's seniors, their families, caregivers, and Florida's Aging Network. At this year's event, topics discussed included the state's Age-Friendly efforts; Governor DeSantis's initiatives to combat dementia and to support affected residents; preventing abuse, neglect, and exploitation; funding for senior services and the growing number of older Floridians; and the unique needs of Florida's senior veteran population, to name a few. Also new to the enhanced program this year was the Florida Senior Day dinner at which Lance Robertson, the Assistant Secretary for Aging and the Administration for Community Living's (ACL's) Administrator, provided the keynote and highlighted the many ways Florida stands as a model for other states in service to seniors. Locally, organizations in Florida's Planning and Service Areas (PSAs) have taken steps to make the public aware of their services. The following highlights showcase these efforts: Representatives from the Area Agency on Aging (AAA) in PSA 1 frequently appeared on the local news in the past year, helping raise awareness of the services they offer and challenges faced by many older adults. They also distributed over 700 fans during the "Senior Chill Out" program over the summer with help from the local WEAR-TV ABC 3, Cat Country 98.7, and Lowes Home Improvement stores. The AAA in PSA 4 also produced radio shows and aired television ads that reached at least 72,800 people in 2019. The Area Agency on Aging for North Florida, Inc., in PSA 2 underwent a name change in May of 2019 with a rebranding to Advantage Aging Solutions. The change was made in an effort to improve the general public's awareness of the mission and the programs that can be accessed through the agency. AAAs also raised awareness by hosting conferences and community events. As an example, the Senior Center Sponsorship Program in PSA 4 invited experts from various fields to speak on a variety of topics (e.g., mental health, falls prevention, etc.). In PSA 10, the 38th Annual Broward Aging Network Conference brought together health care professionals, aging network professionals, and elders to promote healthy aging, independence, and community engagement. Participants learned about health, nutrition, exercise, caregiving, and the upcoming census. The AAA in PSA 3 received a two-year grant from the Retirement Research Foundation that will be used to recruit 24 volunteers to lead workshops and 12 ancillary volunteers to assist with contacting participants, marketing in the community, and distributing educational and promotional materials. The AAA in PSA 8 recruited and trained new volunteers from five of their seven counties to provide evidence-based training for older adults and caregivers.</p>		
<b>2</b>	<b>Type of Development:</b>	<b>5. Policy development</b>
<p>This year, Secretary Prudom updated DOEA's mission and vision to increase awareness of the importance of Florida's older adults and caregivers. The new mission is to promote the health, safety, and independence of Florida's seniors, their families, and caregivers. The updated vision is for all Floridians to live well and age well. The intention of this change was to more formally declare DOEA's commitment to supporting the millions of important and selfless caregivers across Florida – more than 2.9 million – who make numerous sacrifices to care for others. One of the most important trends affecting home and community-based long-term care is the growing recognition of the burden borne by family caregivers and of their needs. Caregivers have been, and will continue to be, the backbone of long-term care, so prioritizing their wellness is critical to ensuring the needs of seniors continue to be met. In July 2019, Elder Affairs increased the basic subsidy for caregivers each month through the Home Care for the Elderly (HCE) Program. The subsidy had not been updated in more than 20 years and is essential to offset expenses for providing support and maintenance of the elder for whom they care. The Department went through the rule promulgation processes to increase the payment. Additionally, DOEA changed its policy to allow clients to be dually enrolled in HCE and the Statewide Medicaid Managed Care Long-term Care Program (SMMC LTC), which now permits existing HCE clients who are released for SMMC enrollment to also keep their basic subsidy caregiver benefit if they choose. To better serve Florida's older adults, the Community Care for the Elderly (CCE) and Alzheimer's Disease Initiative (ADI) programs, both general revenue programs that provide an array of community-based services to meet the needs of functionally impaired elders, also received an update. Following a program evaluation, it was determined that some clients were terminating their services due to the inability to pay co-payments established in the program. In order to better serve seniors, DOEA updated the co-pay policy for CCE and ADI clients to ensure continued services to clients who are unable to pay. Effective July 2019, no co-payments are assessed on any CCE or ADI client whose income is at or below the federal poverty level. Additionally, no CCE or ADI client may have their services terminated for inability to pay their co-pay. To address the issue of senior hunger in Florida, the Department partnered with Feeding Florida and representatives from the Florida Department of Health, Florida Department of Agriculture, USDA, Florida Department of Emergency Management, and other non-profit entities to form a long-term feeding task force. Despite utilizing federal and state funding to provide over 11,000,000 meals to elders across the state through DOEA in 2019, senior hunger is an issue that continues to grow as Floridians age. Though the long-term feeding task force materialized after Hurricane Michael and focused on immediate food procurement for those affected by the hurricane, it has transformed into an information sharing network to help identify ways to make Florida a hunger-free state in both blue skies and gray. Locally, AAAs are also leading collaborative efforts to build systems and policies that increase services to older adults and caregivers. The AAA in PSA 2 is developing a new respite center for its residents in Jackson County to provide access to respite, caregiver training, and counseling services. The AAA in PSA 5 has developed a bi-directional referral process where patients at Well Med Foundation and Well Med Senior Clinic are referred to the AAA for information, referral, assessments, and enrollment in programs. A grant in PSA 9 from the National Council on Aging is supporting the expansion of the local Benefit Enrollment Center to assist Medicare-eligible older adults in accessing help and benefits.</p>		
<b>3</b>	<b>Type of Development:</b>	<b>6. Legislative development</b>
<p>During Older Americans Month (May 2019), DOEA's Secretary Richard Prudom was invited to present before the U.S. Senate Select Committee on Aging to discuss Florida's strong Aging Network. The purpose of the committee hearing was to discuss reauthorization of the federal Older Americans Act and to highlight all that Governor DeSantis is doing to make Florida the best place for older adults and their families. Florida was selected for our many innovative ways to serve the growing and increasingly diverse senior population, and the Department was highlighted as a model for other states to follow. The Committee was especially interested in our Age-Friendly efforts, Governor DeSantis's efforts to combat dementia, and DOEA's Dementia Care and Cure Initiative. Locally, organizations in Florida's PSA have made notable strides in building support for programs that benefit older adults. The AAA in PSA 6, for example, has created an advocacy brochure for members of the Florida Legislature to highlight the importance of funding home-based services for frail and vulnerable older adults who can no longer remain safely at home without some assistance. The mailer compared the modest cost of providing such basic services as housekeeping assistance and home-delivered meals to the significantly more expensive cost of placing someone in a Medicaid-funded nursing facility. The AAA in PSA 11 participated with other elder-serving organizations in an Older Adult Advocacy Task Force, convened by the United Way of Miami-Dade. The taskforce seeks to educate the general population, as well as elected officials, about the growing need for services for older adults. In May, the taskforce organized a Stand Up for Older Adults Forum, and nearly 90 leaders came together to lay the groundwork for more collaborative advocacy and "consciousness raising."</p>

**SECTION IV. Developmental Accomplishments**

**B. For A System of Elder Rights**

Identification of Three Top Accomplishments		
<b>1</b>	<b>Type of Development:</b>	<b>1. Public Education/Awareness</b>
<p>Stopping the abuse, neglect, and exploitation (ANE) of seniors and vulnerable adults is an integral part of Livable Florida – DOEA’s statewide efforts to make Florida a place where older adults can live well, and age well safely and free from abuse. Social isolation is a major factor that can increase the vulnerability of an elder. DOEA has been working with communities through the Livable Florida initiative to help prevent social isolation and, therefore, reduce exploitation. DOEA has expanded its focus on World Elder Abuse Awareness Day (WEAD), recognized internationally each year on June 15. In his Bolder, Brighter, Better Future Budget Recommendations, Governor DeSantis has recommended \$160,000 in increases to fight abuse, neglect, and exploitation through Livable Florida and the expansion of WEAD activities and outreach. Locally, the AAAs and other partners in Florida’s Aging Network offered information and assistance as part of their strategy to increase public awareness and education of elders’ rights. For example, the AAA in PSA 3 sponsored advertisements for their elder abuse hotline and increased elder abuse prevention awareness through public service announcements on the radio and in newspapers, and distributed elder abuse awareness information to attendees at meal sites, community centers, and other organizations that serve the public and senior populations. The AAA in PSA 9 has focused during the past year on establishing regular participation in various task forces, coalitions, and multidisciplinary team meetings in the community related to elder rights and elder abuse/neglect/exploitation. These teams work in various ways on outreach, public education, prevention, and resolution of crimes against older adults and develop coordinated community responses involving various stakeholders. The AAA in PSA 5 provided workshops to educate and bring awareness of the legal rights of Florida seniors and veterans. The information provided can help seniors protect themselves from frauds and scams, and helped veterans and their survivors with obtaining benefits. In PSA 2, training programs educated 195 individuals on the prevention of elder abuse, neglect, and exploitation. The training covered definitions, signs, and symptoms of abuse, neglect, and exploitation; the role of Adult Protective Services and the Long-Term Care Ombudsman Program; how to report suspected or known fraud or abuse; barriers to reporting; and ways to collaborate professionally. Finally, the AAA in PSA 6 provided education on recognizing the indicators of elder abuse, neglect, and exploitation and provided education on reporting requirements to two rural providers.</p>		
<b>2</b>	<b>Type of Development:</b>	<b>2. Resource Development</b>
<p>In March, Governor Ron DeSantis highlighted some of his key initiatives that support Floridians living with Alzheimer’s disease and related dementias (ADRD) and their caregivers. One of the Governor’s initiatives was to add a section in the State Health Improvement Plan (SHIP) that is exclusively devoted to ADRD. It was important to include ADRD in Florida’s SHIP because Alzheimer’s is the sixth leading cause of death in Florida, yet it was not directly addressed by the SHIP (although each of the other top 10 causes of death were addressed by the SHIP). The Alzheimer’s Association projects there are 560,000 Floridians living with Alzheimer’s disease – a number (which does not include those living with other forms of dementia) that is expected to increase to more than 720,000 by 2025. DOEA partnered with the Alzheimer’s Association and the Florida Department of Health, and ADRD has been added as a priority area in the SHIP. Thanks to the vision of Governor DeSantis and Lieutenant Governor Jeanette Nuñez, Florida is the only state in the nation to have a priority area in its SHIP devoted exclusively to the care of those living with ADRD and their caregivers. The subcommittees of the new priority area workgroup have implemented the strategies and objectives in the SHIP to ensure that Florida is a place where all Floridians, including individuals living with ADRD, their families, and caregivers, can live and live well. Goals of the ADRD priority area include the following: 1) Challenging each of the institutions that house Memory Disorder Clinics (MDCs) in Florida to provide matching funding annually to the MDCs to allow for an increase in the number of individuals they serve with evaluation and diagnostic testing for ADRD; and 2) Directing the Florida Department of Health to apply to the Centers for Disease Control and Prevention to become an Alzheimer’s Center of Excellence, which will enable the state to draw down federal funding for evidence-based approaches to treatment and prevention of ADRD. Further, DOEA has worked to expand the Dementia Care and Cure Initiative (DCCI). As of November, DCCI now has active task forces in all of Florida’s 11 PSAs, and there are 14 total task forces. The Department continues to work with communities currently participating to develop and implement solutions that are dementia-sensitive and caring for those affected by dementia. While all PSAs are now active, DOEA continues to work to increase the number of participating cities and counties within each PSA as the number of those affected by or diagnosed with dementia continues to rise. In support of these Floridians, Governor DeSantis secured a funding increase for the Department’s Alzheimer’s Disease Initiative (ADI) in the 2019 Bold Vision for a Brighter Future budget. An additional \$3.1 million was provided to serve additional elders with Alzheimer’s disease and provide relief, respite care, and counseling for their caregivers. For next year’s budget, Governor DeSantis has recommended additional funding increases of more than \$3.6 million to serve more individuals.</p>		
<b>3</b>	<b>Type of Development:</b>	<b>5. Policy development</b>
<p>Currently, there are more than 5.5 million residents age 60 or older in Florida, and by 2030, this population will increase to 7.6 million – an increase of more than 38 percent. The communities that will thrive in Florida will be those that both tackle the challenges and embrace the positive possibilities that an aging population creates – essentially becoming livable communities. The amenities of a livable community help to maximize the independence and quality of life of older adults, while also enhancing the economic, civic, and social vitality of the community. An important initiative at DOEA is Livable Florida – working with AARP on making Florida an “Age-Friendly State.” In April, Florida became the fourth state in the nation, and the first state in the Sun Belt, to join AARP’s Network of Age-Friendly States and Communities (Network). In embracing the Age-Friendly designation, Governor Ron DeSantis envisions a Florida where older adults, and indeed all Floridians, are thriving in livable communities where they not only live but live well and age well. Age-Friendly states and communities address the social determinants of health – the conditions in which people are born, grow, live, work, and age. The social determinants of health include factors such as socioeconomic status, education, appropriate and affordable housing, neighborhood and physical environment, employment, and social support networks, as well as access to health care. There are now 35 communities in Florida – 21 cities, three villages, two towns, and nine counties – that have joined the Age-Friendly Network. Not only will those communities be building on that momentum, but others will be joining them in 2020 in creating a Livable Florida. As just one example among many, the AAA in PSA 11 is working on its Age-Friendly Miami-Dade initiative to collectively address issues of importance to older adults. In 2019, Secretary Prudom also conducted regional symposia with organizations from Florida’s Aging Network. The meetings served as forums for information gathering and sharing in order to improve current policies and programs and raise statewide awareness and support for important department priorities, including the Livable Florida initiative.</p>
